

Dear Feeding The 5000 Advocate & Supporter:

Feeding The 5000, Inc. is proudly celebrating its one year Anniversary of making a positive difference throughout the Kansas City community.

In 2010 when we became a nonprofit organization, Feeding The 5000 was charged to help launch a feeding campaign that would touch youth in the areas of Nutrition. Technology. Education. The community collaboration and support has been amazing!! Since our campaign, we have touched over 5,000 youth who have benefited from our programs. Feeding The 5000 has set a new standard for nonprofit collaboration and was recently praised by Councilman Jermaine Reed as an organization that is needed throughout the districts in Kansas City.

Now, Feeding The 5000 is celebrating our one year anniversary just the way we started the organization by fundraising to expand and enhance our feeding programs for 2012. There is a cost to centralize our feeding site and mobilize our collaboration efforts with our community partners. We are working towards a goal for 2012 to raise \$100,000 as part of our Annual Giving Campaign to help build the foundation for our feeding programs.

Please help us to sustain and expand a truly needed service for our local families and youth by making a contribution to Feeding The Core in Kansas City Annual Campaign.

Our goal is to feed 5000 youth per day in the Greater Kansas City area. We are in need of expanding the Kitchen capacity for Feeding The 5000, Inc. This requires a significant upgrade of our current facilities to meet the demand and State requirements for Feeding the At-Risk youth. We are in need of capital to expand our current facility or relocation to a larger facility. Please help us achieve our goal of feeding 5000 youth in 2012.

You are invited to join our campaign by sending your tax-deductible gift to continue to make Feeding The Core in Kansas City possible. Give now to www.feeding5000.org or send your contribution to:

Feeding The 5000, Inc.
